EDUCATION

National Institute of Technology Agartala

2024 – 2028

Bachelor of Technology in Electronics and Communication Engineering

Current CGPA: 8.7/10

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Internet of Things

Sri Chaitanya Educational Institutions

2022 – 2024

Intermediate Education(XI , XII)

Percentage: 98.1

- **Academic Achievements:** : JEE Mains : 98.23 percentile, Cleared JEE Advanced

TECHNICAL SKILLS

Languages: C, C++, JavaScript, Python

Frontend: HTML, CSS, Tailwind CSS, React.js

Backend: Node.js, Express.js

Database: MongoDB

Tools & Technologies: Git, GitHub, Postman, REST APIs

PROJECTS

After Credits | *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB* | [GitHub](#) | [Live Demo](#)

- Developed a personalized movie and series tracking platform that prioritizes individual user experiences over community-driven ratings.
- Implemented secure user authentication and account management using MongoDB-backed user profiles.
- Built watchlist and watched-list management features with persistent cloud storage for each user.
- Designed a personalized review and rating system allowing users to maintain private viewing histories and opinions.
- Created a dedicated dashboard for managing reviews, ratings, and media collections across multiple sessions.

SkyPulse | *HTML, Tailwind CSS, JavaScript, Geolocation API* | [GitHub](#) | [Live Demo](#)

- Developed a responsive weather application that automatically detects user location using browser geolocation services.
- Integrated real-time weather retrieval and city-based search functionality for quick access to weather information worldwide.
- Designed an intuitive user interface displaying essential weather metrics in a centralized dashboard.
- Optimized API interactions and user experience to provide fast and accurate weather updates.

Expense Tracker | *HTML, CSS, JavaScript* | [GitHub](#) | [Live Demo](#)

- Built a personal finance management application for tracking and analyzing daily expenses.
- Implemented weekly and monthly spending analysis to help users identify expenditure trends.
- Developed dynamic graphical visualizations for monitoring financial activity across multiple months.
- Added transaction history management and CSV export functionality for expense reporting and data portability.
- Designed an interactive dashboard displaying recent transactions and spending summaries.

COMPETITIVE PROGRAMMING

- Solved **250+** problems on **LeetCode**; achieved **Top 45%** ranking in LeetCode Contest Ratings.
- Solved **150+** algorithmic programming problems on **Codeforces**.
- Strong understanding of arrays, strings, binary search, recursion, trees, dynamic programming, and greedy algorithms.

ACTIVITIES

College Fest Volunteer

National Institute of Technology Agartala

- Coordinated logistics and event operations as part of the organizing team during institute cultural and technical events.
- Collaborated with student teams to ensure smooth execution of large-scale campus activities.
